- 4 head purchased, receive \$40 off of each head
- 5 or more head purchased, receive \$50 off of each head

**\$50 off per head if you take your animal(s) home sale day.**

Dear Fellow Cattlemen;

No, we are not back! We have always been here selling our bulls private treaty since 2021. After 30 some years of public auction selling bulls, in 2016 we had a female dispersion of 100 plus 3 to 8-year-old cows keeping our heifer calves, bred heifers and 9-yr-old cows and older. From those first calf heifers and older cows kept, we had an excellent set of bulls to offer private treaty for 2017.

Four years ago I had an individual want 100 registered cows. He purchased some in 2016, plus purchased bulls from us for years. We agreed on a price and ages 3 to 8-year-old plus a few good horned cows. My final question to him; "When are you coming to pick them?" "I'm not". My response, "What do you mean you're not?" "You are going to pick them for me." "Whoa!" Yes, more discussion and yes, I picked 100 cows for him. He did not know until after the delivery of the cows that he was getting a satisfactory guarantee such as

any flawed cow or a cow with a poor calf. I replaced two cows that fall. We have continued selling bulls private treaty. As you will see in the catalog, the quality of the bulls and females need to be offered at public auction.

I am inviting you to be with us Tuesday, March 24 at 12:30 p.m. (Central Standard Time) at Mobridge Livestock Auction in Mobridge, South Dakota, when we will provide you with a ranch-ready quality set of bulls that have predictability both in numbers and appearance bred into them and with a great disposition.

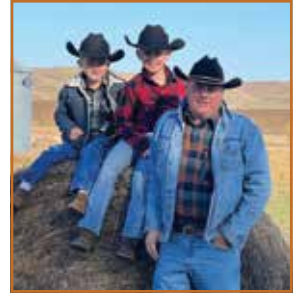

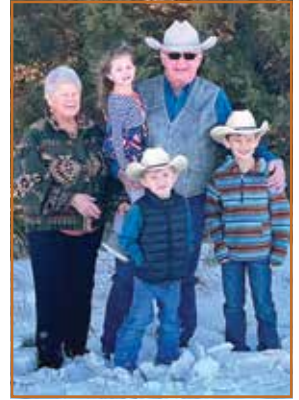

All the bulls are guaranteed for the first breeding season. As some of you know, our customer service definitely goes beyond just selling you a bull. We service what we sell! Our guarantee is second-to-none! We are confident you can put these bulls into your operation with confidence and only improve upon what you have already built. Feeding arrangements can be made and we will cooperate in delivery.

Offering 8 2-yr old bulls that are semen and trich tested.

Averages on all bulls: BW: 83; WW: 677; YW: 1224; SC: 35.7

To each of you, have a GREAT 2026!

Jim Schott

SCHOTT Cutting Edge PRODUCTION SALE

# Jim Schott:

## From Limousin Legacy to the Cutting Horse Pen

For more than four decades, Jim Schott has been a cornerstone of the Limousin cattle industry. A respected cattleman from McLaughlin, South Dakota, Jim, alongside his family, built a legacy rooted in honesty, discipline, and people-first values. Those who know the cattle coming out of Corson County know the Schott reputation well: quality genetics, sound dispositions, and cattle built to work in real-world conditions.

“I was told in the beginning that I was crazy,” Jim recalled, reflecting on his early years in the cattle business. “They said I couldn’t make a profit with cattle on my own or that I wouldn’t make it.”

Those early doubts became fuel. At just 26 years old, Jim committed himself to a level of discipline that shaped the rest of his life—tracking every expense down to his “cup of coffee,” monitoring death loss with calves and maintaining a keen awareness of every dollar and cent. That attention to detail didn’t go unnoticed, whether in conversations with bankers during times of expansion or in everyday relationships that mattered just as much as business.

In fact, relationships have always been central to Jim’s philosophy. At the entrance gate to the Schott home place, one word stands above all others: PEOPLE.

What began with 140 cows, a few bulls, and a new 4430 JD tractor and loader—initially a way to diversify into farming—grew into a ranching life Jim remains deeply grateful for.

“The greatness, the blessings of ranch and farm life—the lifestyle—wow, I would not trade,” Jim said.

“Along with smelling the flowers and the roses in the good times...you also have to smell the manure pile in the rough times! If utilized and observed properly, the manure makes the flowers and roses smell and grow better!”

Jim and his wife, Priscilla, raised their three children -- Jared, Jason and Vickie -- in northern South Dakota just west of the Missouri River. Today, the family also includes four grandchildren. The ranch sits amid layers of history along the trails of Sitting Bull, Lewis and Clark, and Chief Gall, in the heart of one of the nation’s largest reservations, where legends and resilience run deep.

Through decades of change in the beef industry, Schott Limousin has adapted without losing its identity. Customers consistently praise the calm dispositions and rugged nature of the bulls—deep-bodied, easy-going cattle capable of traveling rough terrain and enduring harsh South Dakota winters. The focus has always been on genetics that help customers succeed and remain profitable.

Yet for Jim, growth never truly ends.

At 80 years young, he decided to step into an entirely new arena: the cutting horse world.

Jim purchased his first cutting horse—a seasoned 15-yr old mare, named Freckles, with an outstanding pedigree—from Jason Reed of Faith, South Dakota. The mare taught him patience, and before long, they formed a strong partnership.

“With her quick turning, she made dirt fly in the ring,” Jim said with a smile.

Many onlookers doubted the decision, convinced Jim would “hit the dirt.” Instead, he found a new passion.

This wasn't Jim's first brush with unconventional adventures. In his younger years, he tried bull riding for a season or two--and even rode a buffalo once. "They paid me to ride the buffalo," he said, laughing, "along with four other cowboys." It doesn't get any more South Dakotan than that."

For cutting horse training, Jim hired Robbi Hanson, located outside Bismarck, North Dakota. The partnership worked well, built on mutual honesty and straightforward communication. Hanson even used buffalo as practice cattle. "They move quicker than beef cattle," Jim explained. "Freckles handled them really well."

Jim later continued honing his skills in Fort Worth, Texas, where he also purchased a 5-yr-old gelding. "Red" was faster and more powerful and deeper-stopping than his starter mare. Red's trainer from South Carolina had a goal for the gelding, and that was to have him perform in the top 10 at nationals in two classes. Jim showed both horses throughout the Dakotas and made two trips to Texas.

No story about Jim Schott would be complete without mentioning his wife, Priscilla, whose own ranching legend is alive and well--just with a modern twist. After spending countless decades horseback, gathering cattle, mile after mile in the saddle, Priscilla now rides what the family affectionately calls "Ol' Red." And no, "Ol' Red" isn't a horse--it's the four-wheeler. These days, "Ol' Red" consistently beats everyone to the herd, dust flying and cattle moving before anyone else even crests the hill. While the miles in the saddle are well-earned and proudly behind her, Priscilla's grit and ranch instincts remain unchanged. Whether horseback or horsepower, she's still getting the job done.

At a show in Blue Ridge, Texas, 759 horses were entered. Jim found himself sitting in first place aboard Freckles with only a handful of riders left.

"The last contestant beat us by two points," Jim said. "And that contestant was 12 years old."

Jim shook the young rider's hand and congratulated him. At 80 years young, Jim had competed and placed against some of the best in the sport, despite having no formal, consistent training schedule.

When asked if it was worth it, Jim didn't hesitate.

"Yes, yes and yes," he said. My goal was to win a buckle. I won five. My long-shot dream was to ride my horse, Freckles, to the cutting horse capital of the world, Fort Worth, Texas.

Within 11 months, Jim received notice from the National Cutting Horse Association that he had qualified with a full-paid certificate for the National Finals in Fort Worth beginning April 4, 2025.

"It was an adventure, a journey, a blessing and a privilege," Jim reflected. "It was given to me and allowed to me by my Great Employer...!If you may be interested in who this employer is... His name is Jesus, the Lord God Almighty."

Jim had attended the world cutting horse finals for 15 years before ever competing himself. A lifelong singer and lover of music, he described the Fort Worth experience in poetic detail.

"I don't think all the people could hear the same music I heard," Jim said. "Those bigger horses with larger shoes made a bass tone on the cobblestone streets. The small-footed horses were more tenor. Listen--it was a choir! That April of 2025 I was going down

the street of Fort Worth toward Will Rogers Coliseum and what suddenly hit me was music beyond my present words. Freckles, a beautiful, gifted, talented, strong athletic animal playing chimes with the shoes underneath her feet. The chimes were ringing in my ears with me in the saddle. "Yes, I took a few extra trips up and down the street."

Looking back, Jim sees the cutting horse journey as a natural extension of his ranching life. A big long-time dream come true at 80 years young!

"The great cutting horse adventure came about because of my family's past ranch lifestyle," he said. "It opened a gate to a new pasture."

That gate--much like the many others Jim and his family have walked through--has led to relationships, lessons, and lifelong memories stretching from Washington State to Mount Vernon, Ohio, and everywhere in between primarily through the delivery of bulls from Schott Limousin Ranch.

As Jim reflects on his life's work, he remains guided by the same five priorities his father instilled in him--values that shaped Schott Limousin and the man behind it:

1. People -- relationships above all else
2. The Beef Industry
3. Quality Beef
4. The Limousin Breed
5. Money

"People come first," Jim says simply. And in every chapter of his life -- from cattle to cutting horses and MUCH MORE beyond, that belief has proven true.

Looking ahead, the legacy continues. Schott Ranch is offering approximately 50 Limousin bulls for sale including 8 two-yr.-olds and 41 yearlings along with 35 open and bred heifers. Built on generations of integrity, attention to detail, and a deep respect for people and the land, these bulls represent the same quality and honesty that Jim Schott has stood behind for more than four decades. # QUALITY COUNTS, EFFICIENCY MATTERS...

# POUNDS PAY!

ECONOMIC ANALYSIS FOR FEEDING PERFORMANCE AND CARCASS GRID RESULTS

## PROFIT BY SIRE BREED DAYS ON FEED

NALRF/ SDSU RESEARCH COMPLETED 2025

- Recently, South Dakota State University completed a study designed to document how genetic differences and days on feed impact profitability to larger outweights and different days on feed. 216 head of cattle raised on two Montana ranches then fed and harvested on research at SDSU. Calves sired by proven Limousin, Lim-Flex, and Angus A.I. sires (1/3 each) on commercial Angus cows.
- Lim-Flex sired calves generated more profit than strait-bred Angus sired calves across all three study groups (From \$13 to \$34 per head)
- Limousin sired calves were more profitable than their Angus sired counterparts in 2 of the 3 study groups. (@ 200 DOF + \$16/Hd, @ 235 DOF \$58/HD)

Nickelback is a black, polled percentage son of SCHT Just Cuz 3106J who goes back to the proven and productive RUNL Alliance 272A. If you are looking to infuse muscle, power and performance, Nickelback is your man. Take a look at his impressive growth and ultrasound figures. He should be just the ticket for siring feeder calves that mash down the scales and profitable replacement females.

**HERD ID: 4104**

Nikki is a red Purebred heifer that combines moderate birth at 72 pounds with a 601-pound weaning weight. She ranks in the top 15% for CED and top 35% for BW, offering calving ease with balanced performance. Phenotypically, she is deep ribbed, level topped and square made with good foot shape and structure. She ranks in the top 15% for REA and top 25% for YG, along with top 30% \$TPI and \$IPI. Nikki is the kind that looks like a cow early — practical, sound and built to stay in production.

**HERD ID: 8251**

Nova is a red Lim-Flex heifer that weaned at 629 pounds and posted a strong 125 WW ratio, showing real growth and performance. She ranks in the top 35% for WW and YW, with added carcass strength including top 10% REA and an impressive top 3% YG. Phenotypically, she is bold ribbed, big middled and wide based with plenty of shape and dimension. Nova is the kind of female that combines muscle and performance with a practical, productive look that fits a commercial program.

### Dean Schrempp Tribute:

On February 21, 2026 the world lost, not only an incredible cattleman, but a man who genuinely gave back to his community, the State of South Dakota, and in sharing his book, he no doubt influenced the world. At 91 years old Dean, and despite his recent health challenges, has lived a bountiful life. As a cattleman he started using Limousin Bulls decades ago in 1974 and has been faithful to the breed ever since. As a personal friend to the Schott Ranch, Dean, over a decade ago, reflected in his testimonial that he had purchased approximately 250 bulls just from Schott Limousin alone. Dean was known to be able to find the “sleepers” in our bunch and capitalize on that. To that end, he was awarded by NALF, the NATIONAL Limousin “Commercial Producer of the Year” award for his stewardship and dedication.

The Schrempp cattle ran along Bear Creek where they have lots of trees and hills for protection against the snow and bitterly cold weather. Dean and his late wife, Mavis, have ranched in that area since the 1950s. The majority of the cows were home-raised. Dean always said “the genetics in Limousin cattle is the way to go”. He selected bulls that are easy calving, have strong legs and a good disposition.

Being a “Cattleman” didn’t just define the man Dean was. There were countless other things in his life that he will be remembered for. Dad (Jim Schott) had the privilege of a “recent” visit and Dean shared how so many of his boxing students or others in a poverty stricken Indian Reservation had overcome so many of their personal challenges and had stopped by or caught him on the street to tell him what a DIFFERENCE DEAN MADE IN THEIR LIVES...He taught so many personal discipline and gave them meaning to their lives. Dean was a boxing coach for 45 years for the youth of the county, and he was a golden gloves boxer for six years. Dean had been a supporter of his community representing

Dewey County in the South Dakota legislature for 20 years. He had been a county commissioner, president of the Cenex board, president of the airport board, president of the parish council, and he started the Eagle Butte medical board clinic, serving as president for 30 years. He received the governor’s “Volunteer of the Year” award in 1991. He is also the author of a book, “Wide Open Spaces” about the Schrempp life in Dewey County .

Dean Schrempp was not just a great, committed bull customer, HE WAS A RESPECTED FRIEND. I witnessed and experienced how he cared for and treated other people and other peoples children to help them to grow up to be a better person. He earned and deserved ALL MY RESPECT & MORE! THANK YOU DEAN SCHREMPP!!

Our sincere prayers for Dean’s Family, his community, his Church, and especially those he called friends are ongoing. The impact of Dean Schrempp’ Legacy will continue to evolve. Tributes like this and countless others in local papers will soon be printed and people will reflect on how Dean affected their lives personally. No doubt these will be inspirations to us all on how we might reflect on our own lives and our own contributions to the things Dean loved so dearly. Inspirations to us all in our Faith, Our own communities, Our own families and maybe even the world.

Respectfully,  
Jim, Priscilla, Jared, Lisa  
and family

# Thank You

We are humbled and appreciative of your support. Because of you, the PEOPLE, our journey in the seedstock business has been fulfilling on all levels. It has been a wonderful ride.
